DAVID MATSON

**PROGRESSIVE SOUND.
LONG TRANSITIONS.
REAL CONNECTION.**

Melodic techno and progressive trance from Lugano — built for nights people don't want to leave.

• Progressive Trance • Melodic Techno • House & Afro House •

ABOUT ME

Not a biography. A feeling.

01

SHORT BIO · FOR FLYERS & LINE-UPS

David Matson is a Polish-born & Lugano-based DJ known for progressive sound, long transitions and energy that builds instead of spikes. Melodic techno and progressive trance through the winter, house and afro house through the summer — every set prepared like a project and played like a conversation with the room.

He grew up immersed in trance and techno, discovering electronic music first from the dancefloor — as a raver, long before stepping behind the decks. That perspective shaped the way he understands atmosphere, emotion and the energy of a crowd.

Today, his sound moves across trance, progressive trance, melodic techno and techno, with house and Afro house adding another dimension to his musical spectrum. Rather than being defined by a single genre, David builds his sets around energy, progression and connection with

the dancefloor — adapting naturally to clubs, festival-oriented sets and private events while maintaining his own sense of flow and storytelling.

David is the creator of *The Set That Never Happened*, an ongoing mix series with a new chapter — or special release — dropping every last Friday of the month.

Based in Lugano, with convenient access to Milan Malpensa and Bergamo airport, David is available for club nights, private events and special bookings across Switzerland, Italy and Europe.

ON STAGE

Liquid Club, Malta
William Buzz, Alicante
Sidi Resort, Alicante
AVA Club, Lugano

MONTHLY

Every last Friday of the month, a new chapter of *The Set That Never Happened* drops.

4 SEASONS

Deep Techno in winter.
Progressive in spring.
House and Afro house under the summer sun.
Trance and melodic techno as autumn takes over.
